DESIGN FOR ALL SENSES

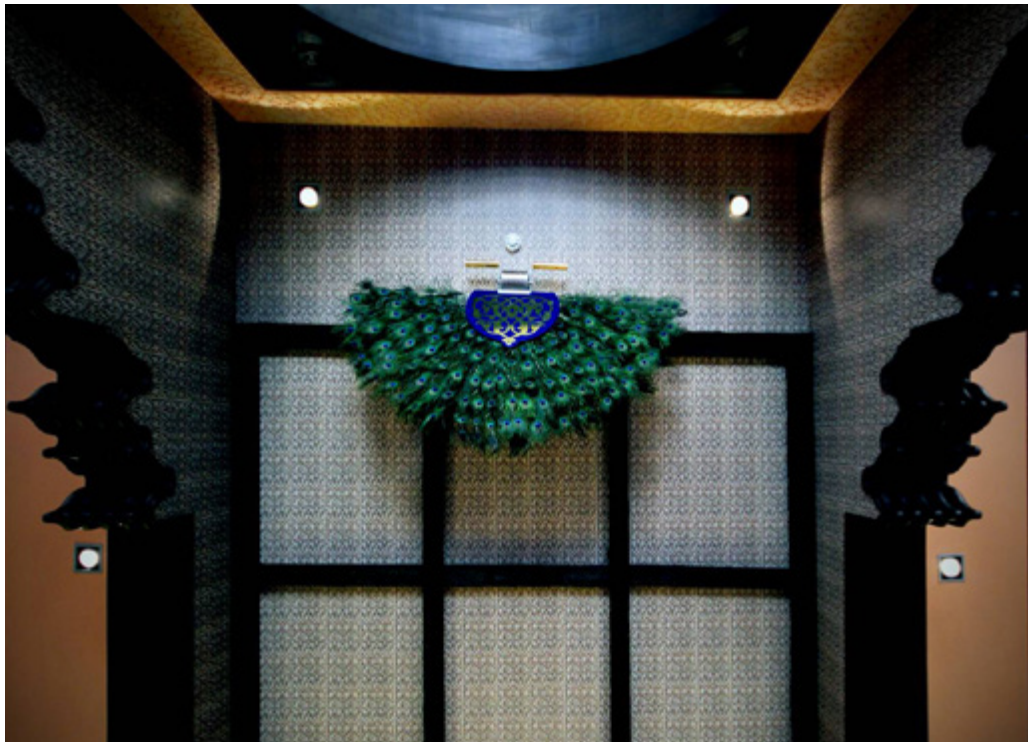
THE SOLITAIRE PUNKAH

Icon of Luxury and Taste

The punkah is the initial man-made ventilation device. It was originally cut from a palmyra leaf and later manufactured mainly from fabric, wood or bird´s feathers. For generations the punkah was a symbol of wealth and luxury and could be found in oriental high places such as palaces of Egyptian Pharaohs and Indian Maharadjahs.

THE SOLITAIRE PUNKAH brings back the majestic punkah fan with its slow pendular movement. It instantly creates an almost tangible relaxing and calming atmosphere and it is the exquisite complement of an exclusive interior design.

THE SOLITAIRE PUNKAH is based on a unique technology that combines a counterweight balanced mechanism with a computer controlled electric motor. This allows the punkah to swing in an almost soundless and highly energy efficient pendular style.

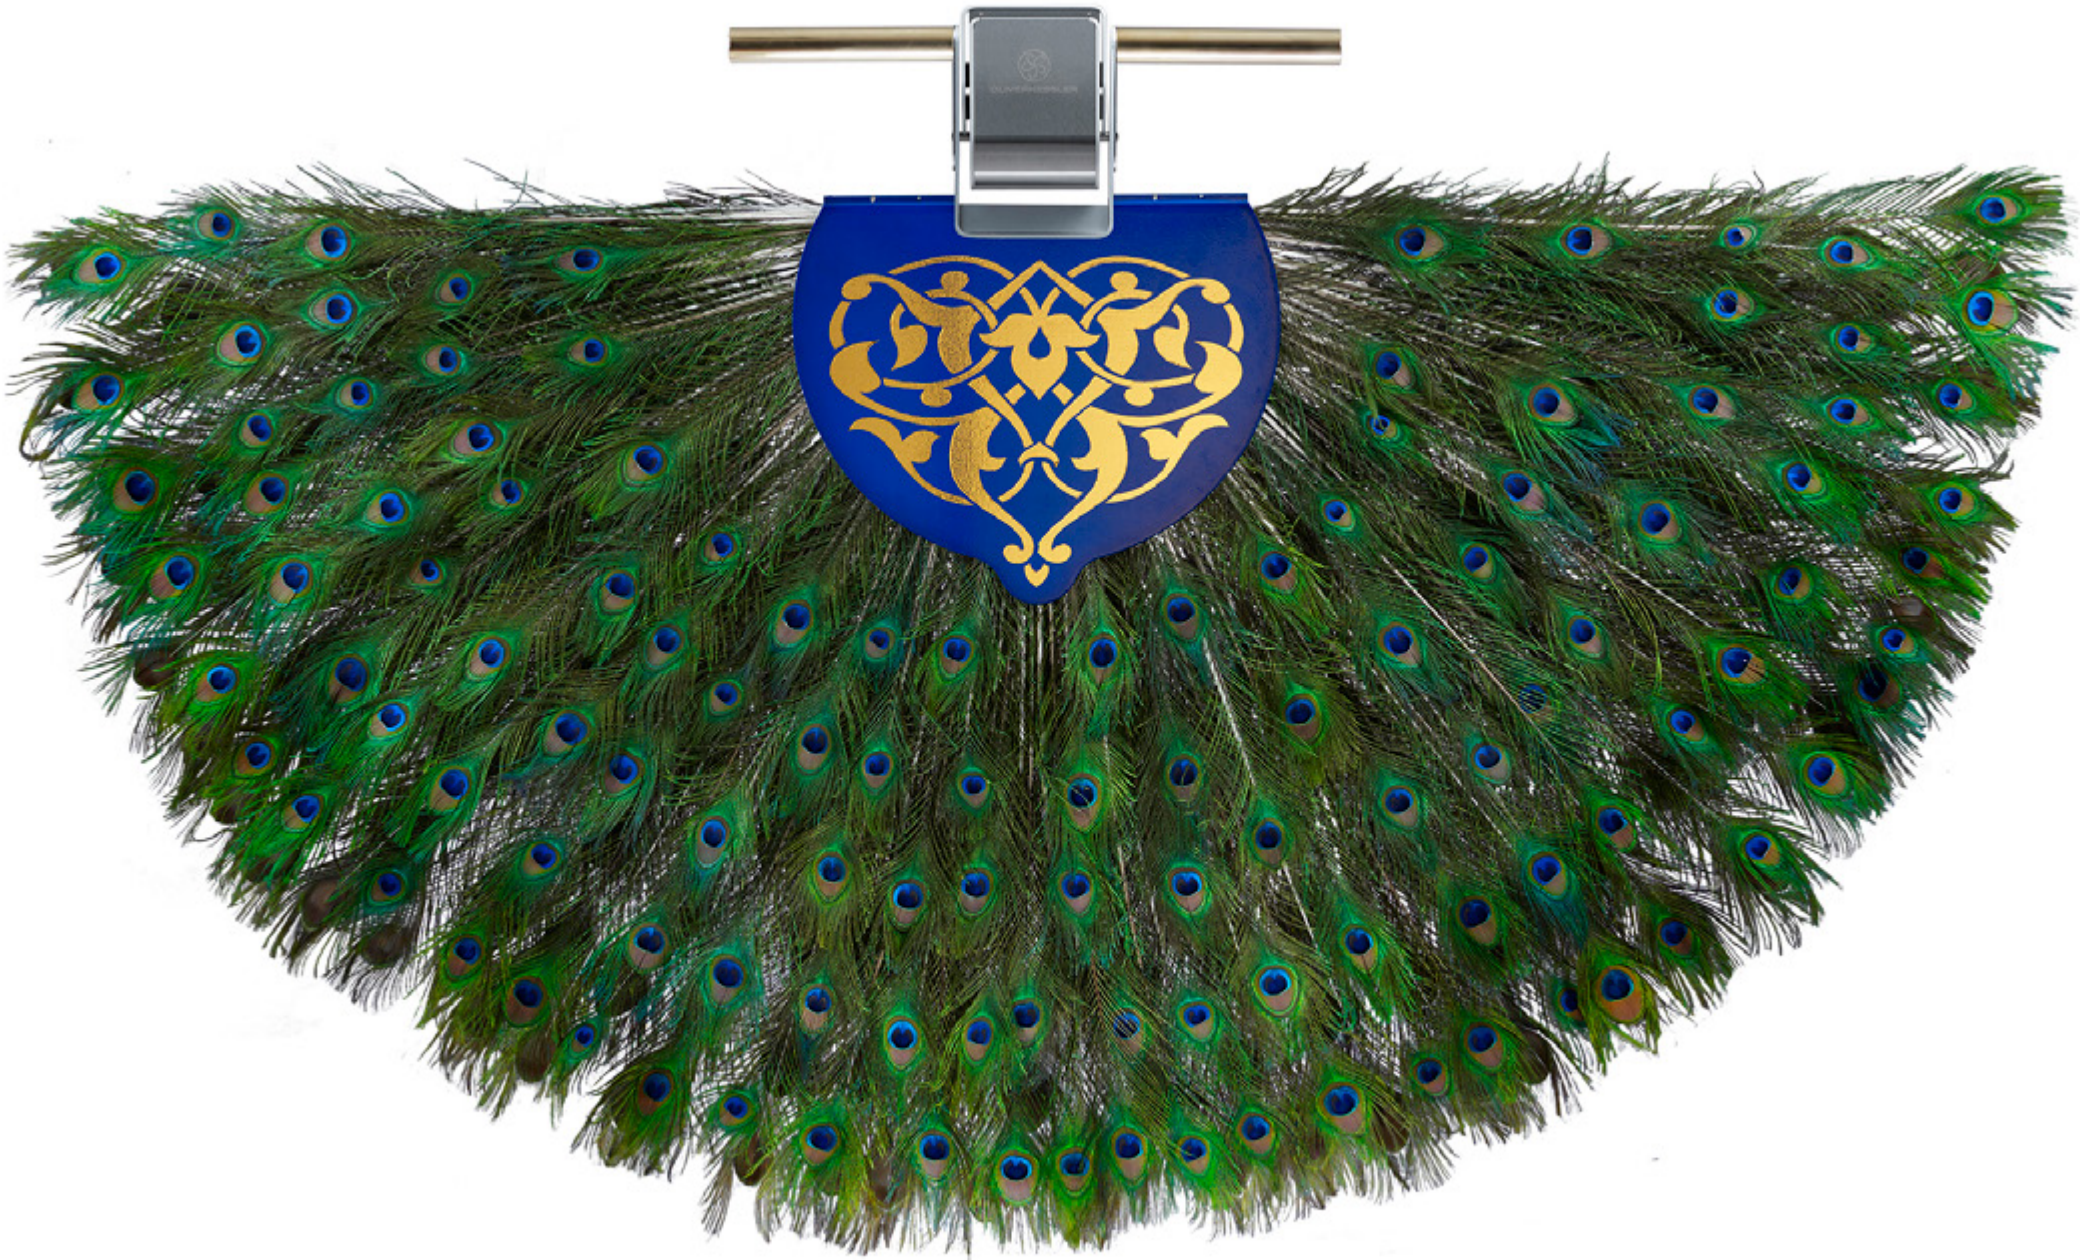


THE PEACOCK

THE SOLITAIRE PUNKAH THE PEACOCK is a truly majestic swinging ceiling fan with a blade made from genuine peacock feathers.

The maximum possible wingspan of the blade is more than 2 meters! Featuring polished counterweights made from solid brass and a traditionally inspired decor on a matching blue cover THE PEACOCK is a real eyecatcher.

This punkah fan is inspired by the ancient Indian fans once reserved for the Maharadjahs.



THE OSTRICH

THE SOLITAIRE PUNKAH THE OSTRICH boasts 24 white or black superior ostrich feathers from South Africa. Each feather is clamped in a bracket which features 72 sparkling Swarovski® crystals.

THE OSTRICH is enspired by the traditional fans of ancient Egypt, where they used to be the sign of power of the pharaohs.

THE BREEZER

THE SOLITAIRE PUNKAH THE BREEZER is the most versatile swinging fan. Equipped with a fabric of almost 1,5 sqm it is also the most effective version of THE SOLITAIRE PUNKAH. The fabric is fire retardant and therefore fit for commercial installations.

Like all our THE SOLITAIRE PUNKAH fans the movement of multiple fan blades can be wirelessly synchronized for larger areas.

THE BREEZER is also fit for semi-outdoor installations, as long as they are wind-free and protected from direct sunlight and rain.

THE SENSU PUNKAH

The Gentle Fan

THE SENSU PUNKAH was developed for those who prefer gentle breezes over the constant draft from a rotating fan. The slow pedular movements of the blade are very relaxing for the eye and help to cool down whenever you experience this punkah fan.

THE SENSU PUNKAH is based on THE SOLITAIRE PUNKAH and has been equipped with lots of extra features like an infrared remote control that operates the speed in 3 steps. When switched off the blade can move into a horizontal position to hide at the ceiling. An integrated timer allows to automatically switch the fan off after a preselected time. The fabric of the blade is fire retardant and washable.

It has an automatic safety stop system and runs on a very low power consumption. Multiple fans can be connected by wire to synchronize the movement of the blades. A ceiling halo light dimmable via remote control in 4 steps can be installed as an extra. Three color&trim schemes are also available.

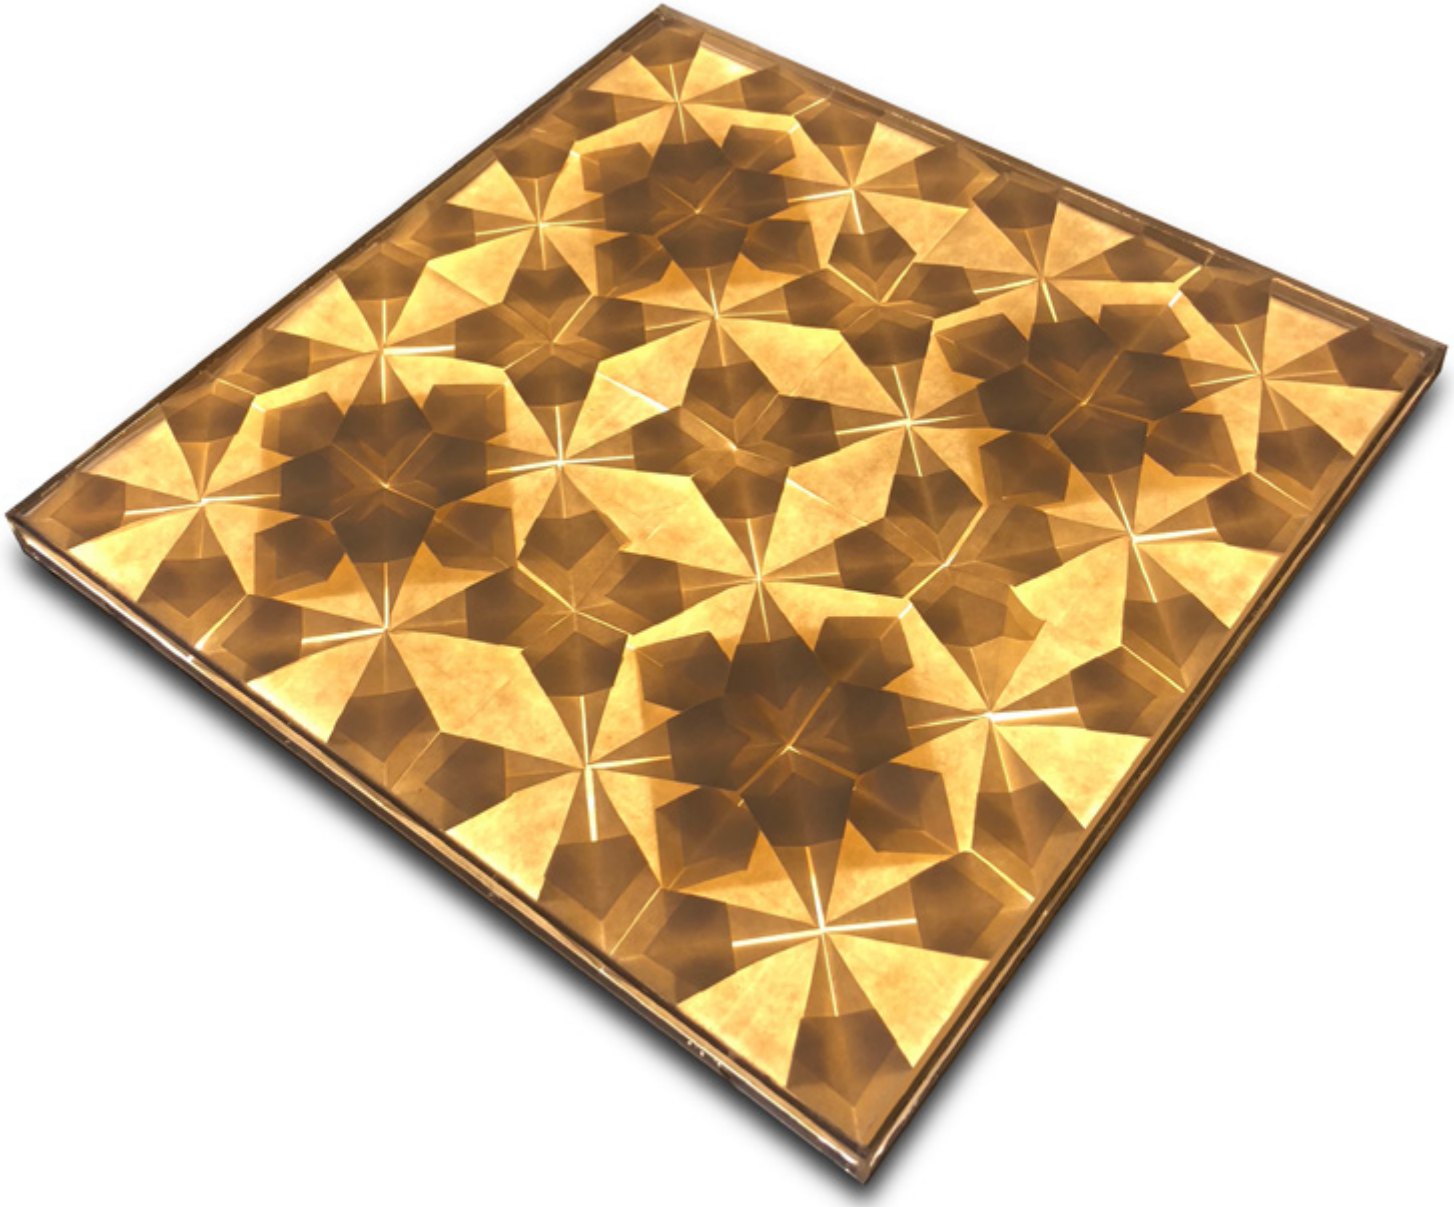
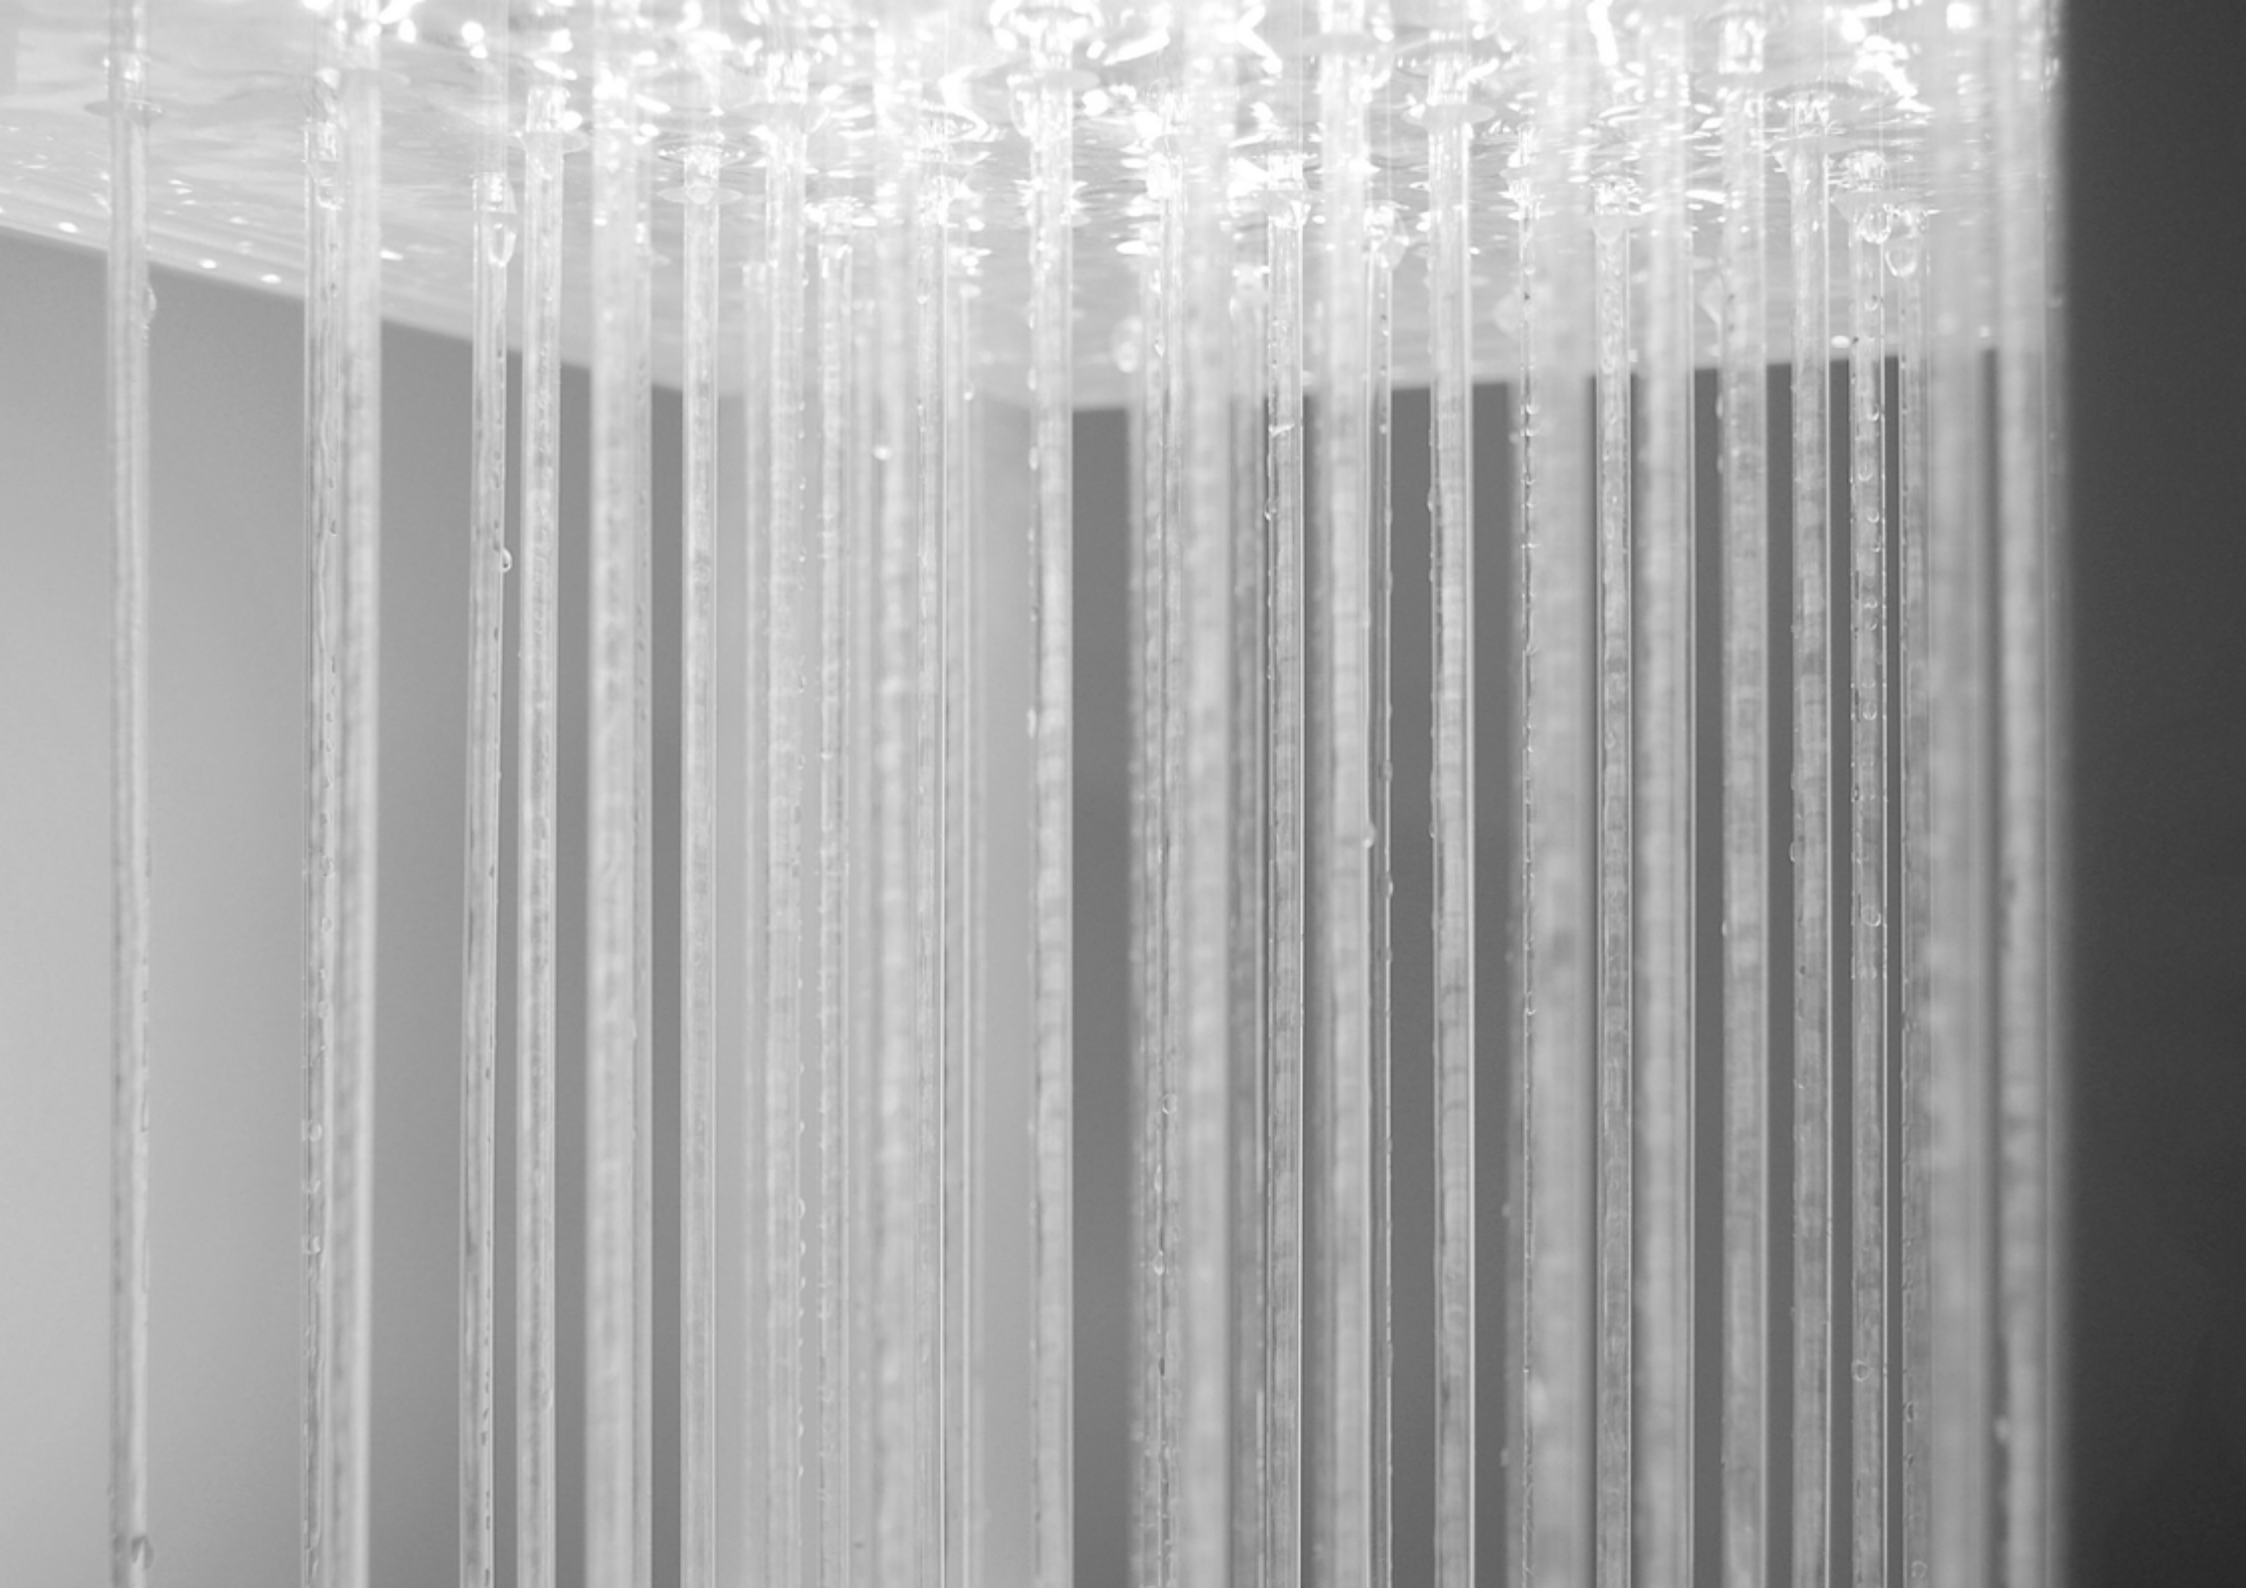
ORIGAMILIGHT

A pattern of threedimensional Japanese paper tiles reminding of a kaleidoscope when changing the angle of view is glowing softly in crème, apricot and orange hues depending on the brightness of the surrounding area. It therefore changes its appearance throughout the day which creates a very unique effect of ambiance illumination.

Our new ORIGAMILIGHT II modules are very flat and can be installed next to each other to form an impressive wall cladding, a wall hanging object or can be integrated into furniture.

A side or bedside table and a sofa table with integrated ORIGAMILIGHT II modules are available in different wood finishes.





RAIN³

RAINCUBE

RAIN³ draws its fascination from the ambivalence of a very clean, almost sterile and artificial cubic shape and the natural untameability of water. The bold lines of the cube can not tame the water running in chaotic and unpredictable ways through the plexiglass tubes in its center, instead the cube merely acts as a threedimensional frame for the playfulness of the element, both housing and protecting it and amplifying the sound of a rain shower.

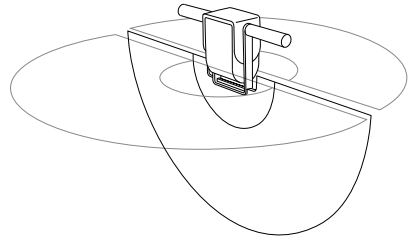
This water spectacle is illuminated by warm or cool white LEDs. RAIN³ can be inserted into a furniture top or can be equipped with a low or high plinth for table or floor installation.

THE SOLITAIRE PUNKAH

Icon of Luxury and Taste

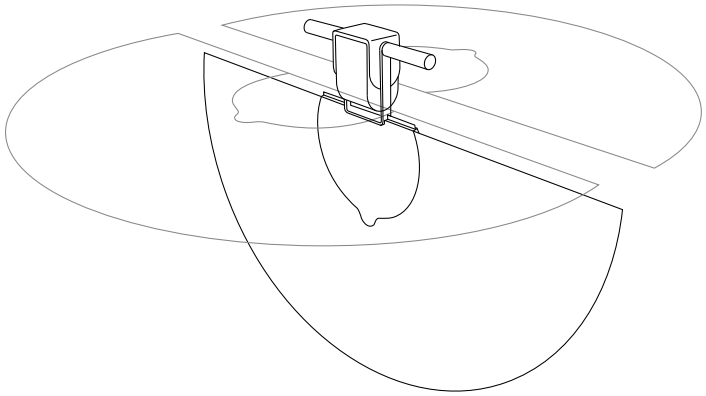
THE OSTRICH

Frame	Anodized aluminium
Feathers	South African ostrich
Counterweights	Anodized aluminium
Other	Swarovski® crystals
Size WxHxD	1400 x 900 x 135 (1400) mm
Weight	appr. 12kg
Indoor only	



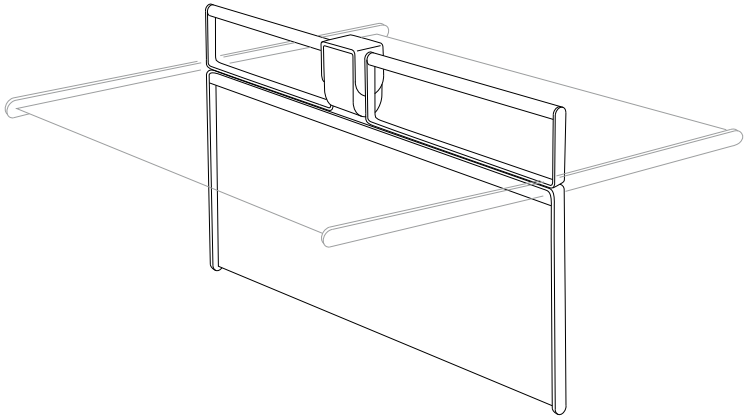
THE PEACOCK

Frame	Anodized aluminium
Feathers	Genuine handcollected peacock
Counterweights	Solid polished brass
Size WxHxD	max 2100 x max 1400 x135 (max 2300) mm
Weight	appr. 18kg
Indoor only	



THE BREEZER

Frame	Anodized aluminium
Fabric	B1 flame-retardant, color of choice
Counterweights	Anodized aluminium
Size WxHxD	1800 x 1030 x 135 (1750) mm
Weight	appr. 14kg
Indoor and semi-outdoor	



Technical Data

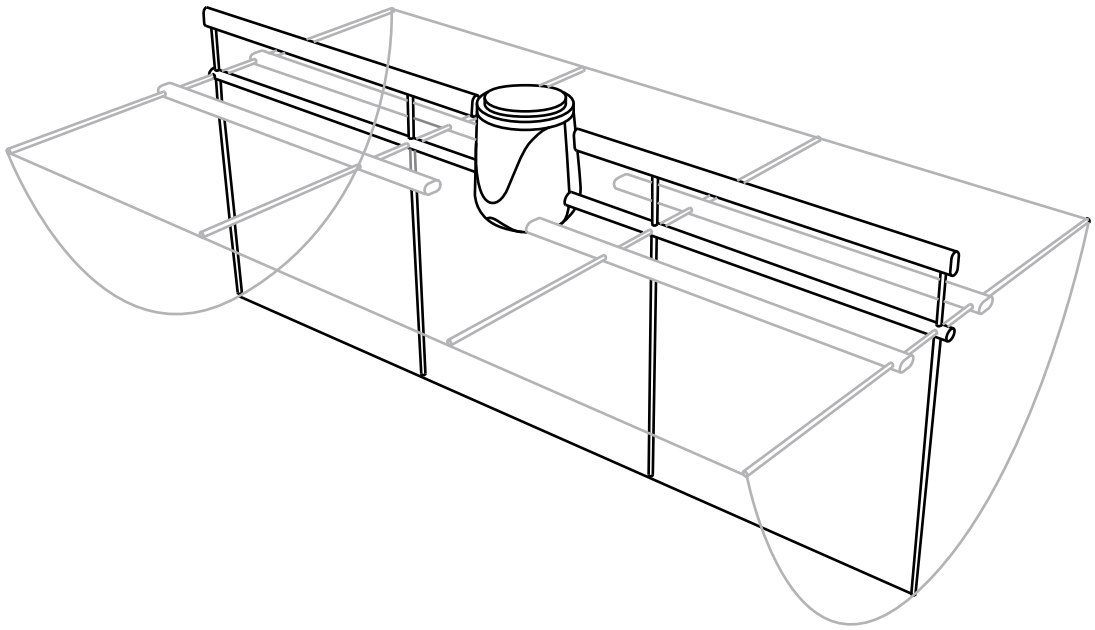
Operating Temperature	0 - 40 °C
Voltage	100 - 240 VAC
Frequency	50/60 Hz
Power Consumption Operation	< 30 W
Power Consumption Stand-by	0.75 W
Fuse	5x20 T1A 250 V

THE SENSU PUNKAH

The Gentle Fan

Technical Data	
Operating Temperature	0 - 40 ºC
Voltage	100 - 240 VAC
Frequency	50/60 Hz
Power Consumption Operation	< 20 W w/o LED Halo
	< 30 W with LED Halo
Power Consumption Stand-by	0.75 W
Fuse	5x20 T1A 250 V
Remote Control	
Transmission	Infrared
Batteries	2x AAA (LR03)
Fabric	B1 flame-retardant
Size WxHxD	1800 x 720 x 200 (1050) mm
Weight	7,5 kg

For indoor installation only



ORIGAMILIGHT

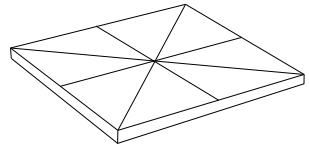
Technical Data

Operating Temperature	10- 40 ºC
Voltage powersupply input	110-240VAC
Voltage powersupply output	24VDC

For indoor installation only

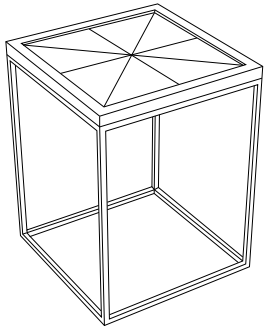
Module

Material	Plexiglass, Japanese paper
Illumination	LED warm white
Power Consumption	4.1W
Size WxHxD	406x23x406 mm
Weight	1.5kg
Indoor only	



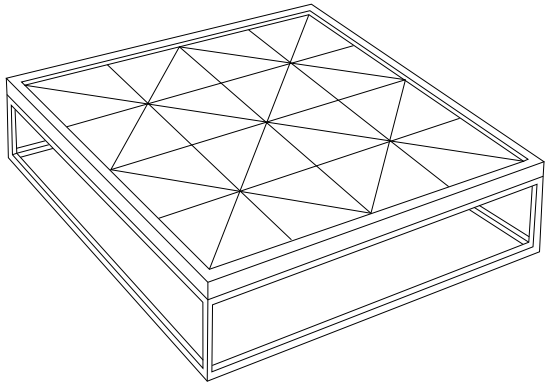
Side Table

Material	Plexiglass, Japanese paper, wood, steel
Illumination	LED warm white
Power Consumption	4.1W
Power Supply	18W
Size WxHxD	466x600x466 mm
Weight	10kg
Indoor only	



Couch Table

Material	Plexiglass, Japanese paper, wood, steel
Illumination	LED warm white
Power Consumption	16.4W
Power Supply	18W
Size WxHxD	872x250x872mm
Weight	15kg
Indoor only	



RAIN^3
RAINCUBE

Technical Data

Operating temperature	10- 40 ºC
Storing temperature	10 - 40 ºC
Humidity	max. 90% rh
Water Tank	Appr. 10 liter

Pump

Voltage	240 VAC
Frequency	50/60 Hz
Power consumption	10W

Illumination

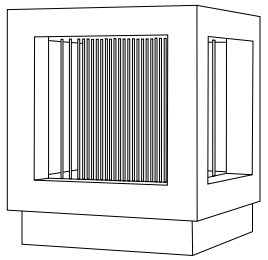
LED warm white or cold white

Voltage powersupply input	110-240VAC
Voltage powersupply output	24VDC
Power consumption	4W

For indoor installation only

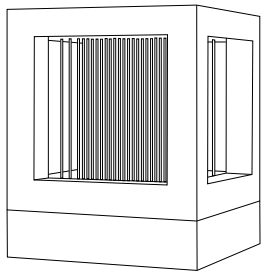
Plain

Frame	Plexiglass
Size WxHxD	400 x 460 x 400 mm
Weight	appr. 15kg
Indoor only	To be inserted into furniture/table



Low Plinth

Frame	Plexiglass, plinth black MDF
Size WxHxD	400 x 500 x 400 mm
Weight	appr. 16kg
Indoor only	



High Plinth

Frame	Plexiglass, plinth black MDF
Size WxHxD	400 x 1200 x 400 mm
Weight	appr. 30kg
Indoor only
